

Tuesday 16 April 2019

Għeżiež Membri,

Breeds of Origin ser jorganizzaw taħdita dwar tgħammir tar-irġejjen nahar it-Tlieta 23 t' April 2019 fl-NGO centre ix-Xewkija. It- taħdita se tkopri Introduzzjoni għat-trobbija tan-naħal, it-trobbija tar-reġina, l-ittestjar tal-prestazzjoni u l-Inseminazzjoni Strumentali tal-irġejjen. Din l-attività hija kkoordinata mal-Malta Beekeepers' Association għall-konservazzjoni tan-naħal *Malti Apis mellifera ruttneri*.

Dawk kollha li se jattendu s-simpożju għandhom jagħmlu l-għalmu tagħhom biex jattendu billi se tingħata informazzjoni importanti ħafna dwar l-organizzazzjoni ta' is-simpożju li se jsir f'Mejju li ġej.

Dear Members,

Breeds of Origin Conservancy are going to organize a lecture on Honey Bee Breeding on Tuesday 23rd April 2019 at the NGO Centre Xewkija. The session will cover an Introduction to Bee breeding, Queen rearing, performance testing and Instrumental Insemination of queens. This event is coordinated with the Malta Beekeepers Association in a joint effort for the conservation of the Maltese honey bee *Apis mellifera ruttneri*.

All those that will be attending the symposium should do every effort to attend as very important information will be given regarding the organisation of the symposium that will take place coming May.
